

MARCELLA J. KELLY

Associate Professor - Dept. of Fish & Wildlife Conservation
Virginia Tech; 146 Cheatham Hall; Blacksburg, VA 24061-0321; USA
540-231-1734 PH: 540-231-7580 FAX
makelly2@vt.edu; www.mjkelly.info

EDUCATION

B.S. 1991 University of California, Davis. Wildlife and Fisheries Biology
Ph.D. 2000 University of California, Davis. Ecology. Advisor: Dr. Tim Caro

PROFESSIONAL EMPLOYMENT

2007 – Present Associate Professor, Department of Fisheries and Wildlife Sciences
Virginia Polytechnic Institute and State University, Blacksburg, VA.
2001 – 2007 Assistant Professor, Department of Fisheries and Wildlife Sciences
Virginia Polytechnic Institute and State University, Blacksburg, VA.
1999 – 2001 Adjunct Professor, Biology Department
California State University, San Francisco, CA.

TEACHING EXPERIENCE

Undergraduate courses:

Population Dynamics and Estimation (Virginia Tech), 2003 - present
Wildlife Field Techniques (Virginia Tech), 2001-present
Tropical Ecology and Conservation (SFSU), 1998 – 2002, 2008
Wildlife Ecology (U.C. Davis), 2000
Rainforest to Reef: Natural Resource Monitoring in Belize, Central America; Virginia Tech
study abroad 2009-present
Teaching Assistant for 15 courses while a graduate student at U.C. Davis, 1993-2000

Graduate Courses:

Carnivore Conservation Seminar (Virginia Tech), 2001
Advanced Topics in Applied Population Ecology (Virginia Tech), 2005-2010; alternate years
Parameter Estimation (Virginia Tech) 2011 – Present; alternate years

RESEARCH SUPPORT (SELECTED)

- 2014-2019 – Philadelphia Zoo – Global Conservation Leader Award: \$100,000
- 2013-2014 – Black Bear Density and Ursid Research Center VDGIF: \$38,100
- 2013-2014 – Black Bear Research Center, Faile Foundation & Acorn Alcinda Foundation: \$34,000
- 2013-2014 – Bobcat Density VDGIF: \$37,500
- 2010-2014 – Eastern Coyote Ecology in the Appalachians: VDGIF \$300,000.
- 2011-2012 – Impact of increased harvest on deer distribution within and CWD containment area: \$38,052
- 2010-2011 – Black bear density and Ursid Research Center support VDGIF: \$24,600
- 2008-2011 United States Department of Agriculture Co-Pi with Dr. Glen Stevens. Integrating science, education, and extension - Belize and Virginia \$95,000
- 2008-2011 – Impacts of widening of highway 64 on movement, demography and sociality of endangered red wolves. North Carolina Department of Transportation (NCDOT). Co-PI: Michael Vaughan. \$408,320.
- 2008-2011 – Impacts of widening of highway 64 on movement, demography and sociality of black bears. North Carolina Department of Transportation. (NCDOT) Co-PI: Michael Vaughan. \$474,450.

- 2007-2008 National Science Foundation (NSF) Facilities Improvement Grant – Las Cuevas Research Center, Belize \$150,000.
- 2006-2008: Using remote acoustic detectors to predict bat species occurrence across the landscape for 14 bat species in Virginia. \$74,500.
- 2006-present. Tiger Conservation in Sumatra. World Wildlife Fund, \$24,500.
- 2004-2006: Horseshoe crab population modeling. National Marine Fisheries Service, \$62,000.
- 2003-2006: An evaluation of Quality Deer Management. Deer Hunters Association, \$95,652.
- 2002-2004: Small mammal abundance and community composition across a harvested landscape. MeadWestvaco, \$32,000.
- 2001-2002. ASPIRES, Virginia Tech. The Center Woods Wildlife Research and Training Center. \$36,000 plus matching funds. Total \$66,000.
- 2001-present: The use of remote cameras for wildlife studies, jaguars in Belize as a model: \$249,420

OTHER RESEARCH AND CAPACITY BUILDING EXPERIENCE

- 2012 - present: Director of the Black Bear Research Center (BBRC). Provide housing for wild black bears that come into conflict with humans. Conduct studies on hibernation ecology and provide a mechanism for fostering orphaned cubs to impart a positive image of the Virginia Department of Game and Inland Fisheries.
- 2011: Nepal Tiger Genome Project (<http://ntgp.org.np>). Workshop: Non-invasive sampling for wildlife. Attendees ~30 park staff and field workers in Chitwan National Park; Nepal. Additionally, workshop on non-invasive sampling – design and analysis: Kathmandu Nepal. And final workshop for Center for Molecular Dynamics, Nepal (CMDN) staff on mark-recapture techniques.
- 2010 Ugyen Wangchuck Institute for Conservation and Environment (UWICE), Conference and Training Workshop - Bumthang, Bhutan. Conducted in collaboration with the University of Montana. Workshop on “Wildlife Research Techniques in Rugged Mountainous Environments in Asia.” Presentation: Wildlife Research Using Non-invasive remotely triggered cameras.
- 2008: Research and Capacity Building. Collaboration with Wildlife Conservation Society-Madagascar, to build a camera trapping biodiversity survey program for Masoala Reserve and for extension to other area of Madagascar - emphasis on rare terrestrial mammals
- 2008: Scientific Advisor for wildlife projects for the Institute of Forestry (IOF), Pokhara and Hetauda campuses, Tribhuvan University, Nepal. Development of internal capacity for wildlife sciences for the purpose of building a Center of Excellence at the IOF
- 2004-2006: Research and Capacity Building. Collaboration with the Carnivore Center of the Tanzanian Wildlife Research Institute (TAWIRI), and the Zoological Society of London (ZSL), Advisor for a country-wide, remote camera survey protocol for 35 species of carnivores.
- 2000: Researcher, University of California, Davis. Endangered Stephen’s kangaroo rat census and habitat requirements in Riverside County, Southern California.
- 2001 - present Present: Research and Capacity Building. Long-term monitoring project examining diversity and abundance of neotropical rainforest mammals, especially jaguars, pumas, and ocelots across Belize, Central America. To date advisor for 8 thesis and/or internships for University of Belize students in Natural Resource Management.
- 1996 - 1997: Researcher: Institute of Zoology, Zoological Society of London, England. Collaborated with Dr. Sarah Durant to conduct a population viability analysis for cheetahs.
- 1993 – 2000: Dissertation research. The use of photographic identification of Serengeti cheetahs to determine population demography, viability, effective population size.
- 1990-1991: Research Assistant: analysis of data on tail flagging in white-tailed deer.

- 1989: Research Assistant, Bodega Marine Laboratory, Dr. A. Peter Klimley. Using ultrasonic telemetry to track the movements and behavior of scalloped hammerhead sharks.

HONORS AND AWARDS

- November 2013 - Global Conservation Leader Award; Philadelphia Zoo. 4th Annual Conservation Gala Event
- March 2012-College of Natural Resources, Curriculum Club Award for Excellence in Teaching
- March 2008-College of Natural Resources, Curriculum Club Award for Excellence in Teaching
- August 2006-FiW, Curriculum Club Award for Excellence in Teaching.
- March 2005-College of Natural Resources, Curriculum Club Award for Excellence in Teaching
- May 2003- Graduate Student Appreciation award; Virginia Tech.
- June 2001- Merton-Love Award for best Ph.D. dissertation in Ecology. UC Davis.
- June 2001- Finalist for Best Student Paper. Society for Conservation Biology, Missoula, MT.
- June 1998- Campus-wide award for Outstanding Graduate Student Teaching
- June 1997- Jastro-Shields Research Award for outstanding graduate student research
- Fall 1997- Spring 1998 - Ecology Block Grant Fellowship for outstanding research proposal.

PROFESSIONAL MEMBERSHIPS

American Society of Mammalogists, American Association of Zoos and Aquariums, Mountain Lion Foundation (formerly Eastern Cougar Foundation) Advisory Board, IUCN cat specialist group,

Society for Conservation Biology, The Wildlife Society, Wild Felid Research and Management Association, International Bear Association
