

Fellowships	Website & Information	Deadline
American Association of University Women Dissertation Fellowships	<p>http://www.aauw.org/fga/fellowships_grants/index.cfm</p> <p>American Fellowships support female doctoral candidates completing dissertations and scholars seeking funds for postdoctoral research leave or for preparing completed research for publication. Applicants must be U.S. citizens or permanent residents. One-year postdoctoral research leave fellowships, dissertation fellowships, and summer/short-term research publication grants are offered.</p> <p>International Fellowships are awarded for full-time graduate or postgraduate study or research to women who are not U.S. citizens or permanent residents. Supplemental grants support community-based projects in the fellow's home country.</p> <p>Selected Professions Fellowships are awarded to women who are U.S. citizens or permanent residents and who intend to pursue a full-time course of study (during the fellowship year) in designated degree programs where women's participation traditionally has been low.</p>	Applications available online August 1, 2008
Association of Women in Science Pre-doctoral programs	<p>http://www.awis.org/careers/edfoundation.html#graduate</p> <p>Female students enrolled in a behavioral, life, physical, or social science or engineering program leading to a Ph.D. degree may apply. All applicants except those for the Satter award must have passed their department's qualifying exam and expect to complete their degree by June 2010. About 5-10 AWIS graduate fellowships in the amount of \$1,000 are awarded each year.</p>	January 24
Ashoka Fellowships	<p>http://www.ashoka.org/fellows</p> <p>Ashoka Fellows are leading social entrepreneurs who we recognize to have innovative solutions to social problems and the potential to change patterns across society. They demonstrate unrivaled commitment to bold new ideas and prove that compassion, creativity, and collaboration are tremendous forces for change. Ashoka Fellows work in over 60 countries around the globe in every area of human need.</p>	Applications will be reviewed as they are received

Christine Mirzayan Science & Technology Policy Graduate Fellowship Program	http://www7.nationalacademies.org/policyfellows/ Applications for fellowships are invited from graduate students through post-doctoral scholars in any physical, biological, or social science field or any field of engineering, medicine/health, or veterinary medicine as well as business, law, education, and other graduate and professional programs.	Nov. 1 March 1 June 1
The Dissertation Proposal Development Fellowship	http://programs.ssrc.org/dpdf/ The Dissertation Proposal Development Fellowship (DPDF) is a strategic fellowship program designed to help graduate students in the humanities and social sciences formulate doctoral dissertation proposals that are intellectually pointed, amenable to completion in a reasonable time frame, and competitive in fellowship competitions.	The student competition opens on Nov. 18, 2008. deadlines will be announced at that time
Environmental Management Participation for the US army Environmental Command	http://see.oraui.org/ProgramDescription.aspx?Program=10056 Supports opportunities to participate in environmental projects involving cultural and natural resources, restoration, compliance, conservation, pollution prevention, validation, demonstration, technology transfer, quality assurance and quality control, training, information management and reporting, and related programs. Duration up to 1-year, renewable up to 3 years. Stipend based on research area and academic classification.	Applications accepted on a year-round basis
EPA Greater Research Opportunities (GRO) Fellowship program	http://es.epa.gov/ncer/rfa/2008/2008_gro_grad.html#SUMMARY The U.S. Environmental Protection Agency (EPA), as part of its Greater Research Opportunities (GRO) program, is offering Graduate Fellowships for master's and doctoral level students in environmentally related fields. Master's level students may receive support for a maximum of two years. Doctoral students may be supported for a maximum of three years, usable over a period of four years. The fellowship program provides up to \$37,000 per year of support per fellowship. This amount covers a monthly stipend of \$1,667 for up to 12 months totaling \$20,000 for the year, \$5,000 for authorized expenses, and up to \$12,000 for tuition and fees.	October 23

EPA STAR graduate fellowship program	http://es.epa.gov/ncer/rfa/2004/2005_star_grad_fellow.html The purpose of this fellowship program is to encourage promising students to obtain advanced degrees and pursue careers in an environmental field. Master's level students may receive support for a maximum of two years. Doctoral students may be supported for a maximum of three years, usable over a period of four years. The fellowship program provides up to \$37,000 per year of support per fellowship. This amount covers a monthly stipend of \$1,667 for up to 12 months totaling \$20,000 for the year, \$5,000 for authorized expenses, and up to \$12,000 for tuition and fees.	October 23
The Field Museum PhD Fellowship	http://www.fieldmuseum.org/research_collections/scholarships/default.htm Candidates will be expected to have formal involvement with the Museum; a curator should serve on the student's academic committee, and the research should rely heavily upon the collections and facilities of the Museum. Students must be in residence in the Chicago area and are expected to spend a significant portion of their research time at the Museum.	February 1
Gilliam Fellowships from Howard Hughes Medical Institute	http://www.hhmi.org/grants/individuals/gilliam.html The Gilliam Fellowships for Advanced Study provide full support for up to five years of study toward a Ph.D. for outstanding students who are from groups underrepresented in the sciences or from disadvantaged backgrounds. Gilliam fellows attend the university of their choice and work alongside distinguished scientists. Chosen for their academic excellence and scientific potential, they will become the leaders of a new generation of biomedical researchers.	October 30
Link Foundation & Smithsonian Institute Fellowships	http://www.sms.si.edu/link.htm Fellowships are offered to graduate students to conduct research in the marine sciences at the Smithsonian Marine Station at Fort Pierce, Florida for 12 weeks.	February 15

<p>Morris Animal Foundation Fellowship Training Grants</p>	<p>http://www.morrisanimalfoundation.org/apply/proposal/2006-07FellowshipTrainingPre-proposalGuidelines.pdf</p> <p>The goal of our Fellowship Training Grant is to provide salary support for training opportunities that will produce biomedical scientists (veterinarian and/or PhD) committed to a career in companion animal and/or wildlife research. Post-DVM, post-residency, or post-PhD applicants are preferred, but exceptional pre-doc students will be considered. Veterinarians in graduate or post PhD programs will be preferred for Companion Animal Fellowship Training applications.</p>	<p>Nov 15 2006</p>
<p>Nancy Foster Scholarship Program</p>	<p>http://fosterscholars.noaa.gov/welcome.html</p> <p>The National Oceanic and Atmospheric Administration's Dr. Nancy Foster Scholarship Program recognizes outstanding scholarship and encourages independent graduate level research -- particularly by female and minority students -- in oceanography, marine biology and maritime archaeology.</p>	<p>Feb 8, 2008</p>
<p>National Defense Science and Engineering Fellowship</p>	<p>https://www.asee.org/ndseg/</p> <p>The primary goal of the Program is to provide the United States with talented, doctorally-trained American men and women who will lead state-of-the-art research projects in disciplines of greatest benefit to national defense.</p>	<p>January 7</p>
<p>Smithsonian Tropical Research Institute Fellowships</p>	<p>http://www.stri.org/english/education_fellowships/fellowships/index.php</p> <p>STRI offers fellowships for undergraduate, predoctoral and postdoctoral research in the areas represented by its scientific staff. Disciplines include ecology, anthropology, paleontology, paleoecology, evolutionary biology, molecular phylogenetics, biogeography, animal behavior, neurobiology, soils sciences, and physiology of tropical plants and animals.</p>	<p>Multiple</p>
<p>Welder Wildlife Foundation</p>	<p>www.bio.txstate.edu/support/texas/welder/welder.pdf</p>	<p>October 1 2006</p>

Research and Travel grants:	Requirements	Deadlines	website
American Academy of Underwater Sciences Scholarships	Scholarships for students engaged in research in which diving will be used as a principle research tool	June 30	http://www.aaus.org/mc/page.do?sitePageId=64326&orgId=aaus
American Philosophical Society – Lewis and Clark Fund	The Lewis and Clark Fund encourages exploratory field studies for the collection of specimens and data and to provide the imaginative stimulus that accompanies direct observation. Applications are invited from disciplines with a large dependence on field studies, such as archeology, anthropology, biology, ecology, geography, geology, linguistics, and paleontology, but grants will not be restricted to these fields.	February 15	http://www.amphilsoc.org/grants/lewisandclark.htm
Animal Behavior Society	The Animal Behavior Society supports research in the behavioral sciences through grants in two broad classes. Applicants apply for 4 grants via a single application process. Three grant categories are for support of graduate student research, and one, the Developing Nations Research Grant may support both students as well as established professionals.	Jan 27 2006	www.animalbehavior.org
Conservation, Food, and Health Foundation	The foundation supports projects that demonstrate strong local leadership, promote professional development in the conservation, agricultural, and health sciences, develop the capacity of local organizations, and address a particular problem in the field. It prefers to support projects addressing under-funded issues and geographic areas.	January 1st July 1st	http://www.grantsmanagement.com/cfhguide.html
Doctoral Dissertation Research Grant	To enable doctoral candidates enrolled at institutions of higher education accredited by a national or regional accrediting agency recognized by the U.S. Department of Education to complete their research and dissertations on policy-relevant housing and urban development issues.	June 12	http://www07.grants.gov/search/search.do?&mode=VIEW&flag2006=false&oppId=41591
Early Doctoral Student Research Grant	To enable pre-candidacy doctoral students enrolled at institutions of higher education accredited by a national or regional accrediting agency recognized by the U.S. Department of Education to cultivate their research skills through the preparation of research manuscripts that focus on	June 12	http://www07.grants.gov/search/search.do?&mode=VIEW&flag2006=false&oppId=41591

	policy-relevant housing and urban development issues.		
Explorer's Club Expedition Grants	The Exploration Fund for graduate students provides grants in support of exploration and field research for those who are just beginning their research careers. Awards grants from \$500-\$1,500.	March 31 2008	http://www.explorers.org/resources/funding/funding.php
Howard Hughes Medical Institute Research Grants	HHMI grants support promising biomedical research scientists working outside the United States, medical and dental students seeking research training, and leading research scientists who are developing new approaches to undergraduate science education.	Multiple – See Website	http://www.hhmi.org/grants/individuals/
International Women's Fishing Association Scholarship	The candidates (male or female) must be matriculated at a recognized University and pursuing a course of study leading to a graduate degree in one of the marine sciences.	March 1st	http://www.iwfa.org/scholarship.htm
Lewis and Clark Fund for Exploration and Field Research	Exploratory field studies for the collection of specimens and data via direct observation. Applications accepted from many fields including biology and ecology. Costs awarded for travel and field equipment.	March 15 2007	www.amphilsoc.org/grants/lewisandclark.htm
Lindbergh Foundation Grants	Support research and/or educational projects that contribute to a balance between technology and environmental preservation	June 12	http://www.lindberghfoundation.org/application-form/index.php
NASA Planetary Biology Internship Program	The NASA Planetary Biology Internship Program (PBI) provides opportunities to explore scientific questions of global scale about planet Earth. Each year the PBI program sponsors nine or ten interns who undertake research at NASA Research Centers or NASA-sponsored laboratories and academic institutions. Students admitted to the Microbial Diversity course at the MBL may also be selected as interns.	March 3	http://www.mbl.edu/education/courses/other_programs/pbi.html
NCSE Paid Internships	The National Council for Science and the Environment (NCSE) offers internships for students and recent graduates throughout the year. Interns may assist in outreach to the academic, governmental, business, and civil communities. Opportunities made available to interns include attending briefings, seminars and conferences -- all important networking opportunities in DC and on Capitol Hill.	October 15 February 27 June 30	http://www.ncseonline.org/Jobs/

Scholarship to the University of Montana - Center for Ethics Workshop	We are looking for graduate students who are inspired by their own research, but who are also interested in exploring the social, political, and philosophical context of that work, and who are committed to sharing science with nonscientists, in a genuine hope for a better world.	April 11	http://www.umt.edu/ethics/programs/debatingscience.html
Sigma Xi Grants-in-Aid of Research	The program awards grants of up to \$1,000 to students from all areas of the sciences and engineering. Designated funds from the National Academy of Sciences allow for grants of up to \$5,000 for astronomy research and \$2,500 for vision related research. Students use the funding to pay for travel expenses to and from a research site, or for purchase of non-standard laboratory equipment necessary to complete a specific research project.	March 15 October 15	www.sigmaxi.org/programs/gi-ar/guide.shtml .
Sustainable Agriculture Research and Education	SARE provides competitive grants for sustainable agriculture research and education through four regional administrative councils. Generally ranging from \$30,000 to \$200,000, they fund projects that usually involve scientists, producers and others in an interdisciplinary approach.	Multiple – See Website	http://www.sare.org/coreinfo/researchers.htm
Wildlife Disease Association Scholarship	The Wildlife Disease Association offers a scholarship and three awards to encourage student participation in the Association and our annual conference, and to recognize outstanding student research.	April 20 2006	http://www.wildlifedisease.org/Student_Awards.htm
Women Divers Hall of Fame Scholarships and Research Grants	A number of scholarships offered (\$500-\$2500) to females involved in diving and/or the marine sciences	Check for new deadline in August 2008	http://www.wdhof.org/scholarships/scholarships.shtml

NSF Funding Opportunities for Graduate Students	Program Details	Website	Deadline
Adaptive Management: Water, Wetlands and Watersheds IGERT Fellowship	This program provides students with a greater understanding and a framework for addressing the issues of coupled human and natural systems (water, watersheds, and wetlands) and the interplay of policy and science required to manage them.	http://amw3igert.ufl.edu/overview.shtml	February 1
Arctic Research Opportunities	Invites investigators at U.S. organizations to submit proposals to conduct research about the Arctic or that is best done in the Arctic. Arctic research includes field and modeling studies and data analysis.	http://nsf.gov/funding/pgm_summ.jsp?pims_id=5521&org=NSF	November 10
Biosphere Atmosphere Research and Training IGERT Fellowships	BART students develop expertise in a number of areas affecting biosphere-atmosphere interactions, including causes and consequences of global climate change, ecological effects of rising atmospheric CO ₂ , carbon and nutrient cycling, and changing atmospheric composition and atmosphere-ecosystem exchange.	https://www.lsa.umich.edu/umbs/bart/bart_programdesc/	February 29
Doctoral Dissertation Enhancement Projects	Supports the dissertation research abroad of one doctoral student in collaboration with a foreign investigator.	http://nsf.gov/funding/pgm_summ.jsp?pims_id=12831&org=NSF	Accepted Anytime
Doctoral Dissertation Improvement Grant	These grants provide partial support of doctoral dissertation research to improve the overall quality of research. Allowed are costs for doctoral candidates to participate in scientific meetings, to conduct research in specialized facilities or field settings, and to expand an existing body of dissertation research.	http://nsf.gov/funding/pgm_summ.jsp?pims_id=5234&org=NSF	Nov. 21

Dynamics of natural and coupled human systems	The Dynamics of Coupled Natural and Human Systems competition promotes quantitative, interdisciplinary analyses of relevant human and natural system processes and complex interactions among human and natural systems at diverse scales.	http://nsf.gov/funding/pgm_summ.jsp?pims_id=13681&org=NSF	Nov. 18
East Asia and Pacific Summer Institutes for US Graduate Students	The primary goals of EAPSI are to introduce students to East Asia and Pacific science and engineering in the context of a research setting, and to help students initiate scientific relationships that will better enable future collaboration with foreign counterparts. The institutes last approximately eight weeks from June to August.	http://nsf.gov/funding/pgm_summ.jsp?pims_id=5284&org=NSF	Dec. 12
The Ethics Education in Science and Engineering (EASE) program	This program accepts proposals for research and educational projects to improve ethics education in all of the fields of science and engineering that NSF supports, especially in interdisciplinary or inter-institutional contexts. Proposals must focus on improving ethics education for graduate students in those fields, although the proposed programs may benefit advanced undergraduates in addition to graduate students.	http://nsf.gov/funding/pgm_summ.jsp?pims_id=13338&org=NSF	March
Graduate Research Fellowships	The Graduate Research Fellowship provides three years of support for graduate study leading to research-based master's or doctoral degrees and is intended for students who are in the early stages of their graduate study. The Graduate Research Fellowship Program (GRFP) invests in graduate education for a cadre of diverse individuals who demonstrate their potential to successfully complete graduate degree programs in disciplines relevant to the mission of the National Science Foundation.	http://nsf.gov/funding/pgm_summ.jsp?pims_id=6201&org=NSF	Nov. 8

Graduate Teaching Fellows in K-12 Education	This program provides funding for graduate students in NSF-supported science, technology, engineering, and mathematics (STEM) disciplines to acquire additional skills that will broadly prepare them for professional and scientific careers in the 21st century. Through interactions with teachers and students in K-12 schools and with other graduate fellows and faculty from STEM disciplines, graduate students can improve communication, teaching, collaboration, and team building skills while enriching STEM learning and instruction in K-12 schools.	http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5472	July 3
Integrative Graduate Education and Research Traineeship	IGERT awards enable these universities to offer stipend support and tuition allowances to graduate students to engage in research in exciting interdisciplinary areas of science and engineering. Interested applicants should study the Web pages of the various IGERT award sites for descriptions of their programs, for contact information on the participating faculty, and, importantly, for specific application procedures.	http://nsf.gov/crssprgm/igert/gradopps.jsp	N/A
International Research Experiences for Students	Supports groups of U.S. undergraduate or graduate students conducting research abroad in collaboration with foreign investigators.	http://nsf.gov/funding/pgm_summ.jsp?pims_id=12831&org=NSF	Accepted Anytime
